

WRAC Site Review
Wednesday June 26, 2002

This learning space is not intended to replace the WRAC site but will provide another access point combined with other community data.

Site Design

Topic menu – The expanded Topic menu is as shown below. Please browse the list and provide feedback on its organization (e.g. are the cultural directory categories correct).

- How to use the topic menu
- How to use assisted search
- How to use keyword search
- How to use map search

Cultural Directory

- Dance
- Festivals/Events
- Fibre Arts
- Galleries/Museums
- Heritage
- Literary
- Music
- Resources
- Theatre
- Visual Arts

Arts Space Inventory

- List All Venues
- Search

Artists Profiles

- List All Artists
- Select an Artist

[Future]

More Search Methods

- Assisted Search
- Map Search

comment on this site

Listings Layout

The discussion seemed to favour a horizontal listing layout with a few columns of information and then a link to a details page for each entry. For example, you suggested for the cultural directory that those columns might be Name, Profession, Specialty.

Provide a list of columns that should appear for the current listings: Cultural Directory, Arts Space Inventory, Artists Profiles.

Searching

What fields should be searched for cultural directory?

“more search methods”

What might you want to search via “map search” (e.g. venues or artists or ...)?

For a “keyword search” what would you search (e.g. cultural directory or directory plus inventory etc.) and what fields?

For “Assisted search” would provide a search form that could search all of the datasources (e.g. cultural directory, space inventory, artists profiles...). What key questions might be useful to ask?

Please include any other comments you have about the current learning space
